## Further information (Disclaimer)

<sup>1</sup> Top track speed electronically limited in the U.S. Always obey speed and traffic laws.

<sup>2</sup> Gasoline cars: Never drive until the tank is completely empty. The irregular supply of fuel that results from that can cause engine misfires. Uncombusted fuel will then enter the exhaust system. This can cause overheating and damage to the catalytic converter. Electric cars: Never drive the battery down to a completely empty state of charge.
