Dealer remarks

Introducing the 2016 Audi TTS!

A great car and a great value! Turbocharger technology provides forced air induction, enhancing performance while preserving fuel economy. With fewer than 35,000 miles on the odometer, this car combines world-recognized style and capability with practicality and plenty of verve on the road! Audi prioritized handling and performance with features such as: a built-in garage door transmitter, power door mirrors and heated door mirrors, and leather upholstery. Audi made sure to keep road-handling and sportiness at the top of it's priority list. Smooth gearshifts are achieved thanks to the efficient 4 cylinder engine, and for added security, dynamic Stability Control supplements the drivetrain.

We know that you have high expectations, and we enjoy the challenge of meeting and exceeding them! Stop by our dealership or give us a call for more information.
