More information about the 2017 Audi Q5:

With the 2.0 TFSI engine and 8-speed automatic, the 2017 Audi Q5 performs similarly to its V6-equipped big brother while being much more fuel-efficient. The standard Q5 has an EPA highway rating of 27 mpg. The Q5 has the longest wheelbase in its class and that gives it an especially smooth, settled ride. With the 3.0L V6, the Q5 has an excellent towing capacity as well. The Q5's rear-biased quattro all-wheel-drive system brings more driving enjoyment than is typical in an SUV this size, while the interior has just as much versatility and flexibility as other utility vehicles in this class. Add to the mix the potent SQ5 performance model, and the appeal of the Audi Q5 is hard to ignore.

Strengths of this model include Strong performance, excellent towing capability, available Audi Drive Select customization, excellent ride quality, and strong safety feature content
