Reviews:

- * If you're looking for a vehicle that is as versatile as a small SUV but looks, drives and feels more like a sensible luxury sedan, the 2014 Audi Allroad dominates a very small field of wagon offerings. Source: KBB.com
- * High-quality cabin; light-duty off-road ability; sporty handling; excellent government crash-test scores. Source: Edmunds
- * When creating a vehicle as versatile as the 2014 Audi allroad, the designers considered its extensive capabilities. Its raised suspension offers 7.1 inches of ground clearance to help you tackle the wilderness, and the stainless steel front and rear skid plates are built to take a beating. The available adaptive xenon plus headlights add a unique look to the vehicle while helping improve your ability to see in the distance, not to mention the front and rear fog lamps and headlight washing system. Finally, the 2014 allroad offers a variety of colors to maximize your idea of rugged. While the exterior of the allroad is all outdoors, it is luxurious and comfortable inside with an ample amount of cargo space. The rear seat is also equipped with a 60/40 split to allow even more space when traveling with fewer people. The interior of this ride is all Audi; you will comfortably sink into the supple leather seating surfaces, softening every bump encountered through its all-terrain build. With each twist and turn, the support from the available sport seats and the feel through the multifunction steering wheel is appreciated. The expansive panoramic sunroof bathes the cabin in natural light, bringing you closer to the outside. Whether the road is paved or unpaved, the allroad is equipped to take it on. To produce dynamic acceleration, the 2.0L TFSI engine's power flows through an eight-speed transmission with optimally spread gear ratios and a tiptronic mode for manual control. Every allroad also comes with dual exhaust outlets, cruise control, garage door Homelink, eight-way power seating for driver and front passenger as well as four-way power lumbar support for driver. A suite of available technologies makes the allroad a true champion of progress. Audi connect with Google Earth imagery and Wi-Fi connectivity allows for up to eight passenger devices and multiple ways to stay connected. Ten speakers, single CD player, mp3 playback capability and iPod integration also make this journey an aural delight while cushioning all passengers with safety in airbags an...
