Maggiori informazioni (Disclaimer)

¹ Le immagini mostrate hanno puro carattere esemplificativo. Sono possibili delle differenze.

² Il consumo di carburante e le emissioni di CO₂ di una vettura non dipendono solo dall'utilizzo efficiente del carburante della vettura stessa, ma anche dallo stile di guida e da altri fattori non tecnici. La CO₂ è il gas serra che incide maggiormente sul surriscaldamento globale. I dati relativi al consumo di carburante e alle emissioni di CO₂ si riferiscono esclusivamente a quanto rilevato dal Costruttore - secondo i metodi di misurazione previsti dalla normativa - al momento dell'omologazione delle vetture e non rispettano necessariamente i valori delle specifiche vetture usate qui offerte nelle loro attuali condizioni
